

Chongqing Mountain & City Sales Office by One Plus Partnership in Chongqing, China

The concept of the mountain and grey colour were the two sources of inspiration for this clubhouse design. Triangular marble patterns form irregular shaped walls and reception counters that take us back to nature. The cave like staircase entrance and the lighting mimicking the rain highlight the concept of this dynamic space.

'The 'Mountain' concept is being selected as the main theme of this clubhouse, the design inspired by the location of the project – Chongqing Nanshan District. The clubhouse is located in a valley surrounded by hills.

Inspired by the architecture of the clubhouse and the geographical background, the grand slanted feature wall and the marble floor pattern are in triangular form.

The LED lightings are hanged from the ceiling, similar to the rain in the natural environment and presenting the natural feeling.

The massive triangular features are directly visualizing the 'mountain' concept. The pattern of grey marbles on the floor is forming a triangular pattern. Together with the feature wall and the irregular shaped reception counters, the 'mountain' concept is being demonstrated. In addition, the stairs connecting the floors are designed as passing through the cave.

'Grey' being selected as the main theme colour, the reception counters are in gold champagne colour and there are no additional decorations. Designers keep using minimum materials & colour to enhance the 'natural' feeling.'
